ACHIEVING A HEALTHIER AND
CLEANER ENVIRONMENT BY
REDUCING POLLUTION AND WASTE

OUR GREEN PROGRAM

At C.W. Building Maintenance we achieve a more sustainable world by using environmentally responsible products and adhering to green friendly procedures.

By choosing our Green Program you can create a healthier and cleaner environment by reducing pollution and waste. As well as enhance your occupants comfort and health. All our cleaning personnel are trained in the proper handling of chemicals and proper green cleaning materials, so sign up today and help your environment.

BENEFITS

- Increased indoor air quality and productivity
- Health and safety
- Positive public image
- Use of recycled products

HEADACHE FREE MAINTENANCE SERVICE.

WHAT GREEN MEANS

- Equipment meets Green & LEED standards
- Use of Green Seal cleaning products
- Chemical measuring and dilution systems
- Employees trained on recycling program
- HEPA vacuum cleaners with micro filtration
- All MSDS sheets are updated
- and more...

COMMUNICATION

We ensure that we have a system for our employees to provide comments and suggestions about the workplace. Communication with the management about potential pests or maintenance issues will help you keep your maintenance costs down.

EQUIPMENT

Our Green & LEED standardized equipment system includes:

- HEPA filtration vacuums
- Less chemicals used in floor stripping
- Extractors that use minimal water
- Low noise, high filtration ergonomic vacuums

CHEMICALS

At CWBM we use Green Seal approved products by BETCO Green Chemicals. This program is predicated on cleaning for human health and the environment. We can clean almost any surface with a Green Product. So why not give us a try and contact CWBM today!
